

S06 – Pupil Challenge

Teddy loves to play outside in his garden, but it is winter! Your challenge is to make a solution for Teddy so he can keep playing even if it rains or snows.

Your solution must:

- Be waterproof
- Keep Teddy totally dry
- Be strong enough to stand up to heavy rain
- Be made only from the materials you have been given
- Be finished and ready to test by the end of the lesson.

Sketch your design ideas below.
